Step 1 klik setting then pilih default browser. Selepas klik default browser pilih allow seterusnya klik internet options.

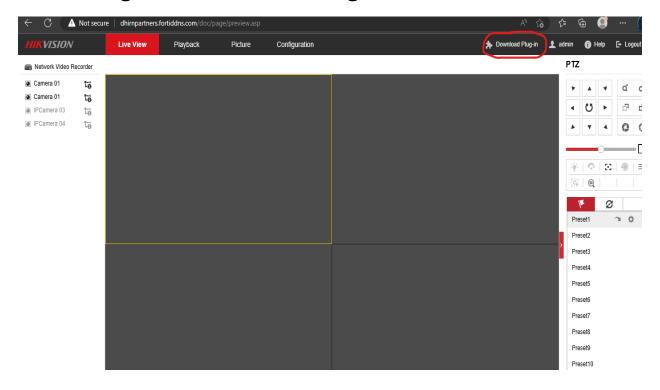

Step 2 setelah klik internet options pilih security then klik custom level.

Step 3 selepas klik custom level. Klik enable atau prompt di semua button yang mempunyai perkataan ActiveX. Selepas itu klik ok then refresh microsoft edge.

Step 4 di paparan live view klik download plug-in then refresh lagi sekali microsoft edge.

Selepas selesai refresh microsoft edge dan paparan live view akan keluar seperti gambar di bawah .
